FOREWORD

The "Supplement Document to NZS4404" is to be read in conjunction with the New Zealand Standard, Land Development and Subdivision Engineering NZS4404:2004.

The Supplement Document has been produced by the Wanganui District Council to inform developers of the specific requirements relating to land development and subdivision in Wanganui.

The Supplement Document has been laid out in the same format as NZS4404 to make cross referencing between NZS4404 and the Supplement Document quick and easy.

The Supplement Document also contains Appendices, which houses additional information that could be of use to developers, such as an Approved Materials List, Traffic Assessment Methodology and Standard Contract Specifications.

Wanganui has expanded the NZS4404 drawing set to include a Wanganui Standard Detail drawings set.

The documents shall take the following precedence in descending order:

- District Plan
- Supplement Document to NZS4404:2004
- NZS4404

All correspondence relating to this document should be directed to:
